

## **Actimove® LombaCare**

For effective back support

- Hand Pocket Closure System
- Stylish Design
- Cushioning Heat Pocket

## Effective support for acute and chronic back disorders

**Actimove® LombaCare is a specially designed back support providing effective stabilisation for the lower back. The design has been developed to:**

- Reduce pain in the lumbar region helping sufferers to go about their daily lives
- Help patients maintain posture
- Increase interabdominal pressure supporting the dorsal musculature
- Give patients a feeling of safety and support

### Indications

- Acute and chronic back pain
- Degenerative back problems
- Acute lumbar pain
- Osteoporosis
- Muscular insufficiency

## Actimove® LombaCare – Supporting, stylish, easy to apply

### Hand pocket closure system

Front closure system with hand pocket provides good leverage for easy closing, opening and adjusting. The wide opening allows patients to insert their entire hand.

### Stylish design

Contemporary colours and sleek design give the back support belt a modern look. The key elements like the hand pocket and dorsal stays are highlighted by fashionable silver fabric enhancing patient compliance.

### With lumbar pocket for heat therapy

Lumbar pocket can be used for inserting a Physiopack® (13cm x 30cm) to supply heat. Warming therapy contributes to soothing pain relief.

### Hi-tech fabric

Hi-tech spacer fabric is used for the lumbar pocket to allow the desired heat penetration and comfort. Another benefit of the spacer fabric is its ability to maintain its shape over time.

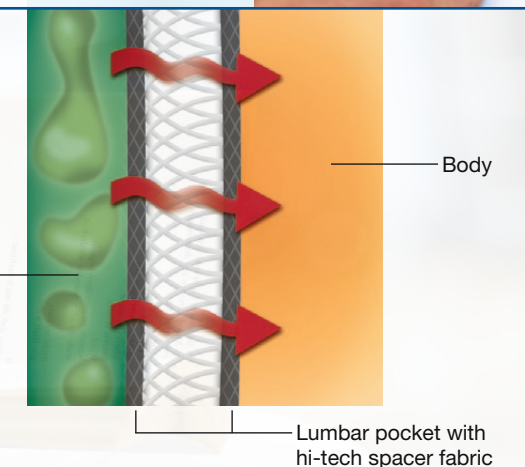

### Cushioning effect

Even without a Physiopack® the unique double layer design provides an extra-cushioning effect for enhanced comfort, leading to better patient compliance.

### Cushioning Heat Pocket

Physiopack®  
Reusable  
hot/cold  
gel pack
